

THE EH-150 AMPLIFIER

A masterpiece in electrical tone reproduction—strongly made of the finest materials money can buy to give faultless performance hour after hour—an all-purpose amplifier that will take two instruments, a microphone and an extra speaker.

7 tubes with tremendous reserve power which guarantees maximum volume with ease and no distortion. 4 stage amplification with fifteen watt output, undistorted. Amplifier has high gain so that it can be used successfully with any type of microphone.

A new 12" Ultrasonic High Fidelity speaker especially de-

signed for this unit—the voice coil is sealed to prevent any dirt from getting in and causing distortion.

New design case, covered with wear-proof Aeroplane cloth, strong luggage catches and leather bumpers, easy grip handle. Removable back. Waterproof slip cover to protect amplifier from weather.

15 foot instrument cord—exceptionally strong and shielded, heavy nickel plated shielded plugs and spring protectors. 10 foot shielded amplifier cord.

Size—16½" wide, 15½" high and 8¾" deep.

CONTROL PANEL EQUIPMENT

from left to right

1. On-off switch; 2. Replaceable fuse; 3. Extra speaker socket; 4. Control dial for microphone; 5. New ruby light on-off indicator; 6. Control dial for instruments; 7. Socket for microphone; 8. Sockets for two instruments; 9. (Below instrument sockets) Bass or Normal tone control.
